Vendor Bred: No
Vendor has owned stock for 2-6 months

Stock History: Purchased in one lot, as a larger line of PTIC heifers ex AuctionPlus, out of Tawonga South, VIC. Split into smaller lines for calving.

Lifetime Traceable: A couple of heifers were purchased with orange post-breeder tags from previous owner, due to losing their tag. Balance have lifetime traceability

Bloodlines: Calves sired by ALPINE ANGUS bulls

Grazing Conditions: Short pick of dried-off, improved Clover pastures, with native Summer grasses throughout.
Returned same

Burr/Seed in Coat: Very odd BATHURST burr in tail brush

HGP Status: The owner declares that the cattle have not been treated with HGP at any period of their lives

Notable Traits

| | Traits |
|---|---|
| 1 Head | 1 Black-baldy heifer calf, belonging to the baldy cow |
| 5 Head | Slight white on udder/underline of 4 of the pure Angus Cows |

| | |
|---|---|
| Assessor Comments | A nice line of quiet tempered, Angus cow & calf units, on their 1st calf. These heifers are developing well, presenting in store, to forward store condition, with good frame & producing plenty of milk for their first time around, which is contributing to the high growth rate for age of the ALPINE Angus sired calves at foot. These young cows are freshening well on the available short, drying-off pick, having been purchased out of a particularly dry part of VIC, & would put considerable weight on quickly given access to more abundant pastures, which in turn, would also make them more suitable for a continued joining as the current drop of young calves mature & the cows return to a regular cycle. Calves have been marked & vaccinated at assessment, (12 heifers & 6 steers). A great opportunity to secure quality young breeders in the prime of their lives, which have calved with ease to top quality Angus calves at foot, & a lifetime of production ahead of them. A great addition to any herd. |
