Assessor Comments	On offer are 70 Angus Heifers that are PTIC to a Rockwood Angus bull to be 3 to 4 months in calf on sale day ! These heifers present a great opportunity to secure classed in females that are only being offered due to seasonal conditions and would normally be retained in the breeding program. Females that present in forward store condition with their whole lives in front of them and are Vendor Bred. Frank Sorraghan based his Angus breeding herd 35 years ago on Hazeldean bloodlines and has always sourced the best genetics for his herd including top genetics from Pathfinder and KO Angus, always purchasing bulls that carry low birthweights and positive calving ease. These PTIC heifers are being offered in three lots sold run out the gate.
