Notable Traits

	Traits
1 Head	White strip underneath to the navel

Assessor Comments: A smart line of heifers PTIC to LBW Alpine Angus bulls (EBVs attached). This line White tag heifers are well grown, medium frame females with good thickness & capacity. Good cattle to assess and handle. These heifers will be an asset to any good herd or a great lift for a producer looking to secure higher end Angus breeding females. A few of these heifers have a splash of white around the underbelly/udder area, one one noted to the navel. Rennylea blood, bred by 'Lerida Station' Gunning, NSW. Highly recommended. On farm inspections available by appointment. *Note there are another lot of White tag 'Lerida Station' bred heifers (15 head) and a further 4 other lots of differently bred quality Angus heifers in this sale totaling 129 PTIC heifers, all account of MJ Garvey
