When assessing these cattle it is clear to see that due to the large amount of handling they have received, they present as a good quiet mob and are very easily worked through the yards on foot and the cattle work well with bikes, dogs and horses.

Handled With Bikes , Dogs , Horses

Assessor Comments Buyers, here is a good quality line of black coated heifers with a small percentage with a white face. These feminine heifers stand on good bone, length and depth. These heifers have performed well during winter and spring unassisted with licks and minerals. They are ready to put onto feed and take out to heavier weights or take home and join to the bull off your choice.
