Assessor Comments

A very good line of 1MK Account Breeder Weaner Steers. Steers are located in tick area but vendor will clear steers on farm. Steers must be then presented at a clearing dip of purchasers choice within 24 hours to be treated and reloaded. Vendor will pay clearing fees on farm. Charges from clearing dip will be purchasers responsibility. Original cow herd was very good straight Angus with the introduction of Ultrablack bulls, when cows relocated from Western Downs to Beaudesert. Cows based on Te Mania Angus with Bulls purchased from Nindooinbah and Palgrove Ultrablack. Steers are only in good store condition due to extremely wet conditions previously majority of steers are good/large frame with 5 smaller (younger steers) and potential for good weight gain. Steers show very little or no pizzle. Very well bred steers that are very suitable to take to heavy feeders or heavy kill cattle.
