or Stags?

Temperament	Yards	Crush	Paddock
	Quiet: 54 head Slightly Stirry: 2 head	Quiet: 53 head Slightly Stirry: 3 head	Temperament not assessed in Paddock

These heifers were responsive to pressure. They were settled on the scales with only the odd one being unsettled. They flowed through the yards well. They were settled for the video (see attached) following assessment.

Handled With: Bikes , Vehicles

Notable Traits

	Traits
5 Head	Spot on eyes - treated at assessment (refer photos).
5 Head	White marking on udder.

Assessor Comments: Offering the 2024 drop weaners off Barrabooka due to the sale of the property. The Barrabooka herd was originally developed on Tuwharetoa Angus (Tarcutta) genetics before transitioning to Hazeldean Angus approx 10 years ago. These heifers are the tops of the drop, out of large framed, big boned, deep bodied cows with presence and sired by Hazeldean and Dunoon sires. Well weaned and offering immediate compensatory weight gains with a change in diet. They are currently being supplemented silage and running with their brothers until delivery. Given the current summer conditions pink eye is about and the odd weepy eye would be expected at delivery. 5 head were treated at assessment and appeared to be clearing up. Should any not be recovering by delivery they will not be loaded. These heifers are from the heart of the herd with a tail removed. They are not classed presenting a range of options for purchaser. Vendor is offering the brothers in today's sale as well as the spring drop weaners.

Assessor: **Henry Booth (Level 1 Accredited)**

Delivery Period: 01/02/2025 to 07/02/2025 (7 days)

Delivery Point: 10 kms south of Tarcutta. Murray's lane is off the Hume Hwy with the yards approx 4kms for the Hwy. Lat: -35.2775401 "S Lng147.7364086 " E
