Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.
Assessor Comments	Well bred line of grain assisted feeder lambs. Lambs were weighed 35kg+ at assessment. They are bred from genuine large frame western bred ewes are the tops of the drop. Lambs show plenty of frame and growth for their age. They present in predominately slightly forward condition with a small percentage in forward store. Ideal opportunity for a short term trade if required. Lambs show plenty breeding and carry a clean bill of health.
