Temperament

Yards	Crush	Paddock
Quiet: 31 head	Quiet: 30 head Slightly Stirry: 1 head	Temperament not assessed in Paddock

Temperament of the heifers is excellent. They were very quiet out in the bigger yards whilst being photographed/videoed. In the race and crush they were again very easy to handle in an excellent set of yards.

Assessor Comments	Buyers a deck load of PCAS ELIGIBLE Angus heifers that show good quality and will suit restockers looking to rebuild numbers and continue to breed from. They show pretty good weight for age but are not really carrying any excess fat coverage and have come through a very wet winter well, they are just starting to clean up in the coat and are really starting to bounce ahead now the feed has dried out a little bit. Would expect pretty rapid weight gains, short term. They would also suit feedlots for the domestic market. Noted at assessment a few with eye blemishes: two with just a light cloudy eye, another two with old blue eye scarring. Also saw about seven with old ring worm scarring mainly on the head/neck. Also, another heifer with a small needle lump on the neck, no issues here though. There were also some of the heifers with a very small amount of white on the udder but well behind the naval. Two other lots in the sale to be delivered at same yards, 73 head all up to fill a truck.
