Comment on Fat Score 1 Cattle	Cattle are in good strong store condition. No issues with transport are anticipated if normal industry practices are followed.
Vendor Bred	No Vendor has owned stock for 2-6 months
Stock History	Purchased as a part of a larger mob from pastoral districts of WA in late 2024.
Lifetime Traceable	167 of the 170 are Life Time Traceable. 3 Head had non vendor bred orange tags applied at assessment for lost tags.
Bloodlines	WA bred - Munda Red Droughtmaster and Valera Vale Droughtmasters over a cow herd that looks to contain Shorthorn, Charbray, Charolais x and Brahman x
Grazing Conditions	Grazing fresh green buffell grass pasture. Season is very good and cattle are moving ahead. Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
WHP/ESI	Cattle are within a Withholding Period or Export Slaughter Interval for: Deltafix Pouron as of 18/02/2025 for 21 days

Health Treatments	Other Treatment	18/02/2025	Deltafix Pouron

Joining Details	Not Station Mated 100% Pregnancy Tested Not Detectable
Other Joining Details	Vet Preg Tested at assessement 18/02/2025 - 170 Hfrs Non Detectably Pregnant. All bangtailed.
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.

Hip Height		Quality Grades		Store Condition	
110-130 cm	78%	Very Good	2%	Store	100%
< 110 cm	22%	Good	70%		
		Fair	28%		

Temperament

Yards	Crush	Paddock
Quiet: 138 head Slightly Stirry: 32 head	Quiet: 105 head Slightly Stirry: 58 head Stirry: 7 head	Temperament not assessed in Paddock

These cattle on a whole were good to handle both in crush and the larger yards. In the crush the slightly stirry heifers just would not fully settle in the crush and often exiting the crush quickly. In the crush the stirry heifers became agitated in and exiting the crush. In the bigger yards they were good to handle with nothing aggressive. The buffalo fly was agitating them but they were still well behaved and happy to stand and come forward to me (see photos). Good to handle in the paddock.

Handled With	Bikes , Dogs , Vehicles
Assessor Comments	A line of one brand No4 and a few No 5 ex WA heifers. These heifers were assessed as 30% fair quality with the balance good to very good quality. The fair quality heifers just lacked a little frame, muscling and bone. The heifers have been at St George since late 2024 and have done well in a good season. For buyers peace of mind , they were Vet Preg tested at assessment with these bangtail heifers all 100% NDP. The buffalo fly had begun to irritate these cattle and they were visibly agitated in the yards for the photos and videos. They were subsequently treated with pour-on after assessing and should be nice and settled from assessment to delivery. Please note extended delivery period on offer. The heifers are mostly a soft crossbred through to flatback animal with approx 6 % showing higher Bos Indicus content. There is enough quality in these mostly medium frame heifers to allow them to grow on to feeder markets with the top 50% possibly suitable as future breeders.
Assessor	**Andrew Wilkie (Level 1 Accredited)** Phone: 0427 011 608
Delivery Period	03/03/2025 to 07/03/2025 (5 days)
Delivery Point	"Boondock" yards approx 45km north of St George off the Carnarvon Hwy. Yards located 4km in off Hway Lat: -28.0385093 "S Lng148.581936 " E
