Store 30%

Temperament	Yards	Crush	Paddock
	Quiet: 53 head Slightly Stirry: 20 head	Quiet: 53 head Slightly Stirry: 20 head	Temperament not assessed in Paddock

These steers were a easy to work with when drafting and weighing. The odd steer was a little stirry with close contact but then no problems in bigger yard. This is due to being located on a block where there is little handling and no human contact for 3-4 weeks at a time.

Handled With: Bikes , On foot , Vehicles

Assessor Comments: An opportunity to purchase 73 Injemira blood Poll Hereford steers. These steers carry terrific genetic strength and plenty of frame that will result in good weight gains going forward either on feed or pasture. The Woodhouse family only purchase top quality bulls from Injemira Poll Herefords. This line of feeder steers range between 360 - 518 kgs to average 418.5kgs full at assessment. Also offering in this sale are 24 Poll Hereford heifers off the same property. Please note 3 steers have a old pink eye scarring and 3 steers have light active pink eye that were treated at assessment and won't affect the steers going forward.
