Quiet: 11 head Slightly Stirry: 2 head	Quiet: 9 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

Buyers a good mob of Angus x steers to assess all steers flowed well up and into the yards only 2 at assessment became

	slightly stirry when put under pressure to be weighed then to be further caught and mouthed in crush. Steers were good to photograph with only 3 trotting off fast in video displayed but otherwise very comfortable to handle and to process through yards
Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	A good line of Angus x trade steers to go forward into summer months with all the work done as steers are in forward condition coming off good country west of Tamworth. Steers originally purchased off coastal locations vendor has done a good job keeping dentition low to all milk tooth and setting the average to 312kg. Buyers note 1 steer had pink eye scarring with one small white dot not affecting health or vision. Steers would suit going back to the paddock for a short term trade into higher feedlot weights or turning into bullocks for kill job, as stated all hard work is done and creates a good trade opportunity for their next walk of life. Buyers please note this is one draft out of a large mob and other drafts are in sale.
