Comment on Fat Score 1 Cattle: Steers have cut up a little over the past 3 weeks with some storms on them. approximately half of these steers had a 12 hour curfew at assessment and appeared to have curfewed heavily in comparison to the mob yarded the morning of assessment. No issues trucking long distance, fit and healthy and on a rising plane of nutrition.

Steers were a pleasure to handle through the yards, odd steer baulked going into the weigh box or exited the headbail after mouthing briskly, neither of which would be considered unexpected. after assessment Steers stood quietly and calmly for photos and in many instances needed to be moved away from the camera. walked out after assessment easily with 2 men on motorbikes.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot , Vehicles
Assessor Comments	4 decks of Crossbred steers predominately Santa/Droughtmaster/senepol/Ultra Black Cross types. Temperament is spot on with these steers handling very well through the yards and easily let out after assessment, it is not hard to see the education they have received. Core Breeding herd is made up of predominately Drensmaine and canowindra Santas, Rondel Droughtmasters, 5-Star Senepol/Charolais cross, Palgrove and Ardrossan Ultra Blacks with Pluto Brahmans. 100% weighed and mouthed at assessment for full buyers confidence with 61 x 2 tooth and balance milk tooth. Ideal steers to feed on take through to grass bullocks with an excellent reputation for growth and performance. Tight weight range with 85% between 400 and 450kg at assessment Large percentage of polled heads, good weight for age, moderate frame and an excellent education. HGP Free, located in clean country and ready continue forward for prospective purchasers.
