Assessor Comments	A very nice line of vendor bred heifers from the highly regarded Macreadie herd. Back by two generations of breeding with careful selection on genetics that focus on calving ease, growth and carcass traits. The Macreadie's offer a draft of heifers each year with continual herd improvement measured by sale performance with many new and repeat buyers securing the offerings. These heifer are no exception and offer great length, large frame, spring of rib with the angular feminine shape we all look for in our Angus breeders. Should you choose to put these heifers through a feeding program they will perform

	equally well in a grass or grain fed production system being a tribute to the years of breeding success.
