| | Very well educated cattle, pleasure to handle. No rushing in the race, all but 4 stood well in the weigh box. Walked out from the yards calmly. | | |

| Assessor Comments | A very well educated and presented line of 110 Vendor Bred No.4 Steers, HGP FREE and Milk teeth. Cattle that are ready to do on good feed, suited for the feeder markets big weight compensatory gains as these steers are really on the move forward. A good mix of hybrid vigour with 10 steers showing a Droughtmaster crest or slight/medium hump. All weight at assessment from 284kg to 434kg to Av. 356kg - don't let this 150kg spread let them down they are a very even line of cattle. There were two steers removed from the assessment that were 470kg, they can be purchased at a negotiated price to help with trucking numbers. Very good bull genetics have been purchased which is reflected in the quality of cattle. As it can been seen in the video these steers are very well handled and educated a real credit to the vendor. TopX Longreach have two other very similar lines of steers in the same sale that would make up very good Road Train loads of cattle. |
