Assessor Comments	66 x 66 Angus and Angus/Murray grey cows and calves. The cows are 11-13 yrs of age and mouths observed had a spread of sound mouths to worn and slightly broken. The calves have been sired by top quality booroomooka,glenaven and Sara park Angus bulls and is evident in the quality of calves. These calves will grow out into beautiful weaners given the right management and are already showing good signs of softness and growth. Please note 1 cow observed with old pink eye scarring (not deemed detrimental) and approx 14 angus cows with white on udder. A great opportunity to place quality units to take forward .
