	Paddock		
	Temperament not assessed in Paddock		
	These heifers stated by vendor are very quiet in paddock but in the yards with some added pressure a good portion become agitated. Heifers were drafted off calves in a round yard with two blokes in which no heifer became aggressive just nervous in confined areas. Heifers can be blocked but do need to be handle with caution.

Assessor Comments	A tidy line of Queensland bred, NSM, Santa, Santa Cross, Charolais Cross & Angus Cross 21 branded Heifers doing an amazing job on their 1st calf @ foot that are presenting in a store to forward/store condition. The Calves are sired by quality Angus bulls, all displaying black coats bare 2 grey calves. The first time mothers are really putting a lot of energy into their progeny as the calves present in fresh condition exhibiting great squareness/softness with new born calves being declared strong. The Heifers present with full and firm udders which are showing great maternal attributes. These heifers and calves creates a great opportunity in purchasing youth that will do a job in any intended crossbred breeding program for many years to come. With the exceptional cattle market prices seen over the past 2 years this article provides a safe bet as the young breeding females are the future of the industry. Note 1x heifer is without a calf and will be deducted \$700 off her single price.
