Assessor Comments	Heavily Classed Angus Herd using the best genetics from Karoo & Te-Mania studs . The Evans family usually purchase bulls in the top 5% of the Breed. Note 2 steers have old healed pink eye blemishes not detramental to their health, , Yellow, Tagged steers are Karoo & Te-Mania blood. The majority of these young steers are soft in the coat 2 weeks or so in the feedlot on a ration barley silage and vetch hay mix .The Evans cattle have a renowned feedlot reputation for both growth & marbling & would be ideal to carry through to trade or export feeders or fatten into big depthy quality bullocks. note this is a run of 30 steers on carnamah that are the youngest end of the 2024 drop. They present in store to forward store condition. All the vet work was done at assessment with the cattle having a bovillus , cydectin pour on & a 5 in 1.ready to put straight into the paddock and bound away for you.
