| Assessor Comments             | Thick set big boned large framed Angus cows with spring drop calves at foot. These cows were purchased PTIC in January 2022 as a part herd dispersal out of Adinngton Victoria. Classed breeders by the Franc's Angus bulls out of Bangongil station bred cows. Sires of the calves are Murdeduke Angus. They are great mothers supplying plenty of milk to produce fast growing well weighted calves. These cows are not overdone and given their frame and fat cover would fatten to heavy export weights with quality feed. These cows have aged well and are structurally sound. They present the successful purchaser a trade opportunity to split cows off calves. 5 male and 2 female calves averaging 83kg. Well mannered, fertile big roomy Angus cows. |                                          |               |
