Assessor Comments	Large framed Angus cows PTIC for a late Autumn calving. In calf to proven Hazeldean sires that will produce quality calves. These cows were purchased PTIC in January 2022 as a part herd dispersal out of Adinngton Victoria. Classed breeders by the Franc's Angus bulls out of Bangongil station bred cows. They have been great mothers supplying plenty of milk to produce fast growing well weighted calves. These cows are not overdone and given their frame and fat cover would fatten to heavy export weights with quality feed. These cows have aged well and are structurally sound. They present the successful purchaser a trade opportunity to calve down and split cows off calves next spring. Well mannered, fertile big roomy Angus cows.
