Assessor Comments	A very high quality line of Angus heifers and calves. Heifers are deep bodied, well bred large frame females and present in forward condition, carrying big bags of milk with very healthy sappy calves at foot. The heifers were purchased as PTIC with breed quality and calving ease in mind. These young females are very quiet and were a pleasure to handle, they are doing a great job on their calves and have their whole breeding life in front of them. 2 heifers with white on udder, 2 heifers with slight blue eye. Heifers are drenched with Nitromec Inject and Selovin LA, calves are marked.
