Assessor Comments	A Great opportunity to secure your weaners now, the oats are up or in the ground and its time to secure your cattle now before the recent rain spikes the market even more. A very good quality line of Angus x Angus and Angus British cross Heifer calves on offer, weaners present in very Fresh condition and were bred out of big framed cows and were sired quality Branga Plains and Tandara Angus bulls. A very nice even line of heifers that offer many options, long bodied soft famine types that should continue to grow into lovely females either for future breeders , backgrounding or to finish for the domestic or export grass market. Quality weaners not too be missed on the back of excellent wide spread rain. Grass fed and Antibiotic free - Declaration available. Please see a line steer weaners from the vendor in this same sale. Delayed delivery could be arranged if wet weather is an issue.
