Assessor Comments	A very nice even line of vendor bred Angus weaner steers. Bred from a well performed cow herd, sired by Wattletop, Kansas & Bridgewater Stud Angus bulls. These steers are true to type and show sound confirmation. Steers present in fresh condition at assessment and are well grown for their age. Steers show sound muscle development at a young age along with good depth of body. In previous years this run of calves have performed very well into grass fattened or feedlot markets, this year given then the right opportunity the purchaser could expect similar outcomes. Grass Fed & Antibiotic free
