Assessor Comments	17 mixed aged cows with calves at foot. These cows weighed 410kg at time of assessment and present in strong store condition with young calves at foot averaging 77kg. These cows are proven mothers and are doing a good job with their calves that range from 2-6 weeks old and are growing well. They were purchased off Gidley station at Bungendore in March 2022. These cows and calves present a fantastic opportunity for any purchaser looking to add to their breeding operation and with 12 heifer calves at foot this presents possibilities to retain young future breeders. They have been running back with a Clea Angus bull since calving commenced . Please note one cow had an old pink eye scar but isn't deemed detrimental .
