Comment on Fat Score 1 Cattle	The Heifers that were assessed fat score 1 are in strong condition & will travel anywhere following the correct travel guidelines. These heifers have been weaned and put straight into a natural pasture paddock for the winter. This winter was very cold & wet which has given the country no time to grow nutritional feed. Heifers will flourish as we head into warmer spring conditions & given correct nutrients.

Vendor Bred	No Vendor has owned stock for 2-6 months
Stock History	11x Heifers purchased on A+ on 03-06-22 out of "Waroo" station QLD & 10 x heifers were vendor bred out of pibbon Red Angus cows AI'D to Pharo Red Angus bulls.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Pibbon Red Angus was created 3 years ago by the Danson family which have utilised numerous bloodlines to create the Red Angus stud & commercial goals.

Grazing Conditions	Natural native pasture which was slow growing through the wet cold winter. Returned same

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		
Health Treatments	Drenched	23/06/2022	Cydectin
	Vaccinated	16/06/2022	7 in 1

Eligibilities	Russian Eligible Saudi Eligible
J-BAS Score	7

Vendor Comments	A tidy line of straight Red Angus heifers that will flourish heading into an enormous spring. These heifers are just surplus to requirement & gives intended purchaser a dual purpose opportunity.

Joining Details	Not Station Mated
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.

Quality Grades		Store Condition	
Good	100%	Store	100%

Temperament

Yards	Crush	Paddock
Quiet: 18 head Slightly Stirry: 3 head	Quiet: 14 head Slightly Stirry: 7 head	Temperament not assessed in Paddock

Heifers were a pleasure to handle through the drafting process which took place in a round yard complex, with a very small percentage showing signs of agitation. When heifers were put in pressure situations through the force yard & weigh box a larger amount become agitated by running quickly up race or looking to escape weigh box as no heifers were caught in crush. Heifers handle well in yards just take caution when handling in crush & race.

Handled With	Bikes , Dogs , On foot , Vehicles

Assessor Comments	A Tidy line of dual purpose pure Red Angus heifers presenting in store condition, NSM, weaned, drenched and vaccinated. Due to the wet & cold winter that Pibbon went through in 2022 is the reason behind why these heifers present in store condition. This article creates a golden opportunity for the intended purchaser to obtain great genetics that will thrive given the correct nutrition, as we are heading into an exceptional forecasted spring. The Danson Family are renown for breeding proven quality genetics that always excel through feedlots or market places. The Pibbon Red Angus herd follows the direction and beliefs of the Pharo cattle company program. Note: 2 heifers showed some green scours @ assessment but is only due to the lush green feed now growing and a small portion of heifers show rub marks but is very common for this time of year which both are not deemed detrimental. OPPORTUNITY PRESENTS.
Assessor	**Ben Marlin (Level 3 Accredited)** Phone: 0437 961 559
