Assessor Comments	A very neat and tidy 4 deck line of Droughtmaster and Droughtmaster cross heifers. 100% reds and blacks with a large percentage of polled heads and exceptional temperament and education. Predominately #4's with a small percentage of #5's and #3's amongst them. Weight range from 250 to 410kg at assessment to average 309kg wet. 70% of the mob between 280kg and 350kg with only 12hd over 350kg and 20hd under 280kg. heifers purchased in 2024 as weaners and have done a terrific job for the vendors. this line is well suited to southern markets to grow out to feeders or with enough quality to join and keep on as replacement breeders.
