Assessor Comments Buyers here's a neat body load of well bred and handled steers read to grow out to feeders, of which the majority will suit the Angus premium markets. Approximately half have been weaned in December 24 with the younger lighter ones being yard weaned currently. These steers flowed through the yard well with no issues and where a please to handle. These steers are generally grown out to domestic and export feeder weights by the vendor, so they'll certainly do the job for you. Located 26km SW of Dalby on the Moonie hwy these steers are centrally situated to match up with trucks going west if required. I recommend this line of Angus & Angus cross Backgrounder steers.
