Assessor Comments	A good line of very quiet Angus heifers, on their first calf. Heifers were purchased as part of a larger lot of PTIC heifers out of SA, ex AuctionsPlus, before being calved down & mothered into smaller lines. Heifers present as mostly good to medium in frame, with the odd heifer showing a little more stretch & height. They are producing good milk, despite limited feed, which is nourishing an even line of marked & vaccinated BLACKSTONE ANGUS sired calves at foot, & they have been running continuously back with the vendors TeMania Angus bulls since calving, however continued joining would be advisable due to the age of the calves. Presenting in fresh store condition these heifers are cleaning up in the coat, & would put considerable weight on quickly with access to better quality feed. A great opportunity to secure good quality, very quiet, young breeders with sappy Angus calves at foot & a lifetime of production ahead of them. Another line of first-calvers also on offer this sale.
