Cows were fine to draft and handle and would be considered to have a good temperament. One cow displayed some run and she also was on edge in confines of race & crush. Photos & videoing was no issue when the pressure was off.

Handled With	Bikes , Horses , On foot , Vehicles
Assessor Comments	Offering a nicely presented draft of young PTIC Black Baldy cows. Acquired as heifers out of a quality western district herd they present in ideal order being principally forward store to forward condition. They look to have the attributes to mature into roomy larger framed cows with capacity. They've been PTIC to top quality Bowmont Angus bulls to commence calving late July for 11 weeks. A nice line of young PTIC cows, rising second calvers, they are a genuine, somewhat regretful sale due the continued dry conditions through the Western District. With vendor offering a total of 80 quality PTIC Black Baldy cows this sale, it presents a great opportunity to acquire a hard article to find, in the prime of their life.
