Handled With	Bikes , Vehicles							
Assessor Comments	A very good line of Angus heifers that would suit breeding or backgrounding. Heifers presented in store to forward store condition and are best described as being medium to large framed heifers. These heifers are well bred with an Ireland Angus sire used over predominantly Ireland blood cows. Heifers are still in there work clothes with long winter coats and show a small amount of rubbing due to lice. It was also noted that 3 heifers display signs of old ringworm scaring that is clearing up. Also note one heifer has white under belly. NO heifers were retained to join, 25% tail removed.
