Assessor Comments	Small line of attractive Black Baldy Steer Weaners. Complete drop of calves from this property with the heifers also being offered in the same sale. Out of 1st calving heifers that have done a great job running on lighter country these steers will make good weight gains heading into Spring. Please note that at assessment one of these steers was noted as a stag, having one testicle still left after being marked with rings. A vet or competent stockman should be able to remove without issue. He also has small horns. The last 3 photos are of this stag. Also note that trucking is by tray truck only.
