Assessor Comments	Buyers, a great opportunity to secure a VGQ line of PTIC heifers.This is the coloured line of the Barford heifers,they show good bone , length and depth of flank to be an asset to most breeding herds.These heifers are all ptic 2-7 months with only approx 10 hd under 3 months and vast majority 3-5 months ,all pregnant to yearling Santa/Simmental bulls (Vendor has used his yearling bulls over all heifers for several years with very minimal calving issues) .Heifers are a mix of vendorbred and purchased as weaners in 2024 ,please note a couple of heifers had some fly rub marks and one with slight blight scarring in one eye neither considered detrimental, Vendor has 3 decks sisters this sale
