Handled With	Horses , On foot , Vehicles		

Assessor Comments Excellent quality line, Vendor bred, Hicks Composite steer calves, presenting in fresh, forward store condition to av 256 kg.

By the Hicks Composite bulls, out of large frame F1 & F2 cows,(refer photos), these steers are bred to perform. showing plenty of shape & softness, with very good growth for age, having experienced a very wet and cold Monaro winter. Steers were removed from their mothers overnight, for a genuine curfew weight, and returned to them post assessment, where they will remain until delivery. Smart line, quality quiet Composite steer calves that will suit all most market requirements. Greenhams Never Ever Accredited.
