| Assessor Comments  | A line of 15 vendor bred Angus friesian x steers sired by Phoenix Park Angus bulls that have had a quality start having been reared alongside replacement Heifers. The steers have been vaccinated twice with Bovilis S and had both their 7in1 injections and were drenched with ivomec plus. These steers are displaying plenty of bone and frame would grow out into big bullocks. The steers are from a 400 herd of large frame holstein friesian cows backed by over 60 years of AI breeding. So all the work has been done for you- just show them the feed and they will do the rest. Note; A small % of steers have old pinkeye scarring and were Castrated @ assessment. |
