Assessor Comments	A line of 18 vendor bred Angus friesland x steers sired by Phoenix Park Angus bulls that have had a quality start having been reared alongside replacement Heifers. The Heifers have been vaccinated twice with Bovilis S and had both their 7in1 injections and were drenched with ivomec plus. These heifers are displaying plenty of bone and frame would grow out into future F1 Matrons. The Heifers are from a 400 herd of large frame holstein friesland cows backed by over 60 years of AI breeding. So all the work has been done for you- just show them the feed and they will do the rest. Note; A small % of Heifers have old pinkeye scarring.
