	Quiet: 36 head Slightly Stirry: 4 head		
	The small portion of the heifers were unsettled when first yarded, the 2 slightly unsettled girls in the yards were noticeable when doing the photos and videos, but did soften a little after a few minutes of handling. 4 head also exited the crush faster than the rest when being weighed. Vendor said they are really good to handle in the paddock, they are just a little unsettled when yarded.		
Handled With	Bikes , Dogs , Horses , Vehicles		
Assessor Comments	A nice line of EU Angus heifers that are well grow, showing good length and depth of body and ready to join to the bull of your choice. They are Greenham Never Ever Grass Fed Accredited. The heifers have come out of a cold, wet winter and are now really starting to pick up in condition. You have a few options with these heifers, breeding replacements or grow out to kill or heavy feeders. A small portion of the heifers were a little unsettled when first yarded, and 4hd stirred up in the crush when being weighed. When taking photo's and video's the majority of the heifers settled , just a few pushy ones. NOTE - 2 heifers have a little white around their udders. NOTE - Vendor also has another 2 lots of steers at his Tallangatta Valley property - 62 steers & 26 steers, and a further 2 lots at his Mudgegonga property - 32 steers & 25 heifers.
