	The small portion of the heifers were unsettled when first yarded, the 2 slightly unsettled girls in the yards were noticeable when doing the photos and videos, but did soften a little after a few minutes of handling. 1 heifer exited the crush faster than the rest when being weighed. Vendor said they are really good to handle in the paddock, they are just a little unsettled when yarded.

Assessor Comments	A nice line of EU Angus heifers that are growing well, showing good length and depth of body and ready to join to the bull of your choice. They are Greenham Never Ever Grass Fed Accredited. The heifers have come out of a cold, wet winter and are now really starting to pick up in condition. They are showing a few signs of rubbing old hair out. You have a few options with these heifers, breeding replacements or grow out to kill or heavy feeders. A small portion of the heifers were a little unsettled when first yarded, and 1hd stirred up in the crush when being weighed. When taking photo's and video's the majority of the heifers settled , just a few pushy ones. NOTE - 2 heifers have old pinkeye scars. NOTE - Vendor also has another 3 lots at his Tallangatta Valley property - 62 steers , 26 steers & 40 heifers, and 1 other lot here at his Mudgegonga property - 32 steers
