	The steers were good to handle through the yards and when being weighed. 1 steer exited the crush faster than the rest and was a little unsettled when having photo's taken. Vendor said they are good to handle in the paddock.

Assessor Comments	A nice line of EU Angus steers that are growing well, showing good length and depth of body and are ready to go. They are Greenham Never Ever Grass Fed Accredited. The steers have come out of a cold, wet winter and are now really starting to pick up in condition and clean up in the coat. They are showing a few signs of rubbing old hair out and the odd steer showing signs of old ringworm around the head. Ideal feeder steers weighing - 381kg - 489kg to Ave 413kg. NOTE - 1 blue roan in this line which can be removed by the purchaser if they wish. NOTE - Vendor also has another 3 lots at his Tallangatta Valley property - 62 steers , 26 steers & 40 heifers, and 1 other lot here at his Mudgegonga property - 25 heifers.
