Assessor Comments	An opportunity to purchased 8 Friesian x Aussie Red Heifers from a high performance milking herd. These Heifers are sired by Friesian bulls bred from moderate to large frame Aussie Red cows. If you were after some future milkers these cattle certainly have some breeding and pedigree behind them to perform. Vendor is only selling these heifers as they are surplus to requirements and has only retained cattle from the AI program as they aim to balance out there genetics and pedigree otherwise they would usually be retained into the milking herd. Odd heifer has a small patch of ringworm. Heifers are very quiet and well educated.
