	All cows were lovely and quiet and flowed easily through the yards. These cows remained quiet throughout the entire assessment process and were a pleasure to handle.		
Handled With	Bikes , Dogs , Horses , On foot , Vehicles		
Assessor Comments	A smaller line of beautifully quiet 3 year old PTIC Hereford cows in calf to a Kennys Creek Angus bull. These cows are due to calve down in April/May 2023 and were joined in a tight 7 week joining period. These cows averaged 474.2 kg at time of assessment and present in forward store condition. They have been PTIC to have their second calf and have all successfully reared calves last season. As seen in the photos and videos these cows are medium framed girls with nice feminine features. With the warmer months around the corner and with good feed put in front of them these cows will have no problems powering forward, packing on the pounds and rearing some nice sappy black baldy calves. Buyers please note that 4 of these cows have signs of old pink eye scaring but does not appear to be active pink eye.
