Steers remained calm in the yards with their mothers outside in a holding yard and moved through the assessment process

	well. The odd steer seemed flighty when moving them around the pen to be photographed. Being unweaned they will benefit from additional handling and education.

Assessor Comments	On offer is an outstanding line of 82 one-mark Angus steer weaners. Steers are 7-8 months old and showing good growth for their age. These weaners are soft, very fresh with plenty of shape. All calves were weighted out over 200kg for an average of 260kgs full at assessment. Calves are out of Pardoo Blood cows sired by Argyle bulls selected with a focus on growth and carcass balance. All steers are still on their mothers and will be until delivery. Please note the vendor has 73 heifers offered in the same which are the sisters of these steers.
