Assessor Comments: A nice, quiet line of pure EAGLEHAWK blood Angus first-calvers.These heifers are well developed, exhibiting good frame for age, with good temperament & conformation.They are producing ample milk, which is nourishing the EAGLEHAWK Angus sired calves at foot, which were marked & vaccinated at assessment (14 steers & 9 heifers). Heifers are presenting in fresh store condition, with access to only a short pick of feed due to dry Autumn conditions, however they possess the frame & bone structure to put considerable weight on quickly with access to more abundant pastures or forage crop. 1 Red ear-tag heifer in this lot, also Eaglehawk blood, is a late calver from another mob. A great opportunity to secure a top quality line of young breeders, with shapey Angus calves at foot, bred from a stud renowned for breeding easy doing, excellent carcass quality cattle that perform & thrive. Vendor is also offering another 2 lines of 24 x 24 one-mark, excellent quality, Angus first calvers this sale.
