	Cattle were a pleasure to handle through yards. Odd heifer got excited in crush but settled back into mob very quickly and stood for photos well.

Assessor Comments	An small but good quality run of PTIC Angus heifers. These heifers are purchased heifers that were bought out of the local sales with type and temperament a focus. Were due to be kept but vendors have decided to sell to make room for Spring calving cows. These heifers are presenting in forward condition, and they would be a welcome addition to any Angus herd. Heifers show plenty of bone and depth and will be excellent matrons moving forward. Would also be an option to calve down and trade in strong markets on the back of the Spring/Summer rain. Please note: Vendor has 5 other lots of PTIC females in same sale. One cow with white on udder. One heifer with white birthmark on midback.
