Assessor Comments	*Quality Heifers with well grown calves at foot* 56 x 56 Angus Heifers with calves at foot, present in store condition and honest medium to large frame. The heifers come from a large self replacing herd that has been on Te Mania Angus for many years. The calves are January/February Drop weighing 116kg average and in healthy condition. The females were purchased as a complete drop from a Dispersal prior to christmas with the purpose to retain as a quality line of breeders but season conditions continue to stay dry forcing the outfits on the market. No Heifers assisted during calving and with another 50kg of condition on them they are a real front paddock type. A great opportunity for someone to improve or start their herd.
