Assessor Comments	Attention all backgrounders, today we have to offer 32 Vendor bred Brangus Steers. The Steers are currently being weaned in the yards and being fed grassy hay. The Steers are sired by Quality Angus and Brangus bulls and this is seen throughout their condition. They all presented well and handled through the yards with ease which is a true credit to the Vendor and the breed. On assessment the Steers averaged 219kg on delivery and showed great shape and frame for their age. Please do take note that Vendors also has Heifers in the same sale from the same location. This is a quality line of coastal bred Steers that never disappoint. These cattle are located in the Tick area and will need clearing before moving over the tick line vendor has pretreatment to help with this. Please also note Vendor has put a castration Ring on one Steer on the day of assessment.
