Assessor Comments	These cows and calves represent the final draft of Howquadale Station Poll Hereford females. They have come through a tough winter and spring period well and are doing a good job on their calves which present in fresh condition. The bloodlines used are mainly Allendale/Days with some Yavenvale and Glendon Park used also. The calves comprise 35 Poll Herefords and 1 Black Baldy calf. There are 16 x 5 year old cows with the balance ranging from 6 to 10 years. The oldest cows were mouthed at assessment with 6 cows showing odd teeth missing and 3 cows had broken mouths. (these older cows still look well and holding their condition).
