Assessor Comments	EU ANGUS WEANER STEERS A very neat line of August/sept drop, vendor bred steers. Well bred EU steers out of the Meadows angus female herd by sires Karoo and Millah Murrah With quality bloodlines and all the hard work done, steers will continue to move forward to grow out to feeder or bullock weights. Averaging 278kg full at assessment and quality

	behind them, these steers are an opportunity not to be missed.the meadows calves are always marked a little bit later to get them growing,this will leave the very odd one showing at the sheath,not detramental as these steers always go to very reputable feedlots.ring worm scarring evident in mob. They grow out very well.
