Assessor Comments	47 x Upper Murray, Cold Country Bred Yearling Heifers that have been running on agistment at Jugiong for the last 4 months. Have thrived & grown out well since leaving the cold, wet, Upper Murray Winter. Stretchy heifers with frame that will suit a breeder or ideal feeder heifers. These heifers display a great temperament and were a pleasure to assess. There were 6 heifers noted at assessment with old pinkeye scarring. 5 have full sight and the worst has no sight in 1 eye. Please see last photo for the worst eye. Approximately 20% of the Angus Heifers have a small amount of white underneath but none forward of the navel. There was a small amount of warts on the odd heifer. Quite, easy to handle, properly educated heifers that come from a strong cow herd with a solid performance history from repeat buyers.
