These cattle overall handled well at assessment, there were times the heifers would run at open gates and turn back into each other in smaller yards. When left alone they were quite content to just stand in the yard. These cattle were flighty in the race and crush but showed no signs of aggression.

Assessor Comments	On offer is a quality line of future breeder Poll Hereford heifers weighed in a tight weight bracket of 324-386kgs LW. Heifers are Yavenvale & Ravensdale blood. These cattle are cleaning up in coat, are showing good length of body and are really on the do. Heifers are well suited for joining to the bull of choice and given the opportunity will mature into a great line of cows. Vendor has only classed these heifers out on their weights so this line still represents great genetic merit.
