	As a whole group these heifers handled well. A couple of heifers were unsettled when pressure was applied but settled once taken off. Cattle are well educated & tailed out at weaning with working dogs.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	Quality line of NSM future breeder Angus & Black Baldy Heifers. Heifers on offer have 30 years of Angus breeding running through their blood, with the vendor selecting high indexing sires from Bongong, Milwillah & Hardhat Angus studs, with a focus on 400d/600d Growth, Positive fats, Milk, Temperament & Fertility. These heifers will mature into highly productive breeders which will offer great genetic gain for the purchaser running a self-replacing herd. As potential breeders these heifers tick all the boxes, however the cattle have a history of performing exceptionally well on feed and would suit any backgrounding or finishing program. Buyers please note one heifer was noted with a slight old eye scarring (REF PHOTOS). Couple of heifers noted with white on their udders. These heifers are being offered to the market due to being surplus to the vendor's requirements and would normally be retained.
