Assessor Comments An excellent line of 56 x 2021 Drop NSM Poll Hereford future breeders. A rare opportunity to purchase future breeders from the renowned Okeview breeding program. The Okeview program selects and breeds for excellent conformation, weight gain, fertility and milking traits as well as functionality in their breeding cows. The heifers present in forward store condition and are very healthy in the coat, with most cleaned up. They are soft feminine females showing great depth and length of body. Surplus females who would of previously been joined, however the joining target has been reached for the 2023 calving. A tail has been removed from this offering. Lovely heifers who will complement most operations and given the opportunity will grow into large framed productive matrons.
